Let Us Remember with Pause and Reflection...

As we recognize and reflect on its 20th remembrance, a moment of silence is a fitting tribute for those who tragically lost their lives on 9/11. As Anki Spitzer said, “Silence contains no statements, assumptions or beliefs and requires no understanding of language to interpret.” I would believe that most of us can still remember where we were when the heartbreaking events of the day were shared and unfolded via television and radio. Recently, we sat down with CSSC’s Driver Fitness Coordinator, Roger Dames, as he shared his life path as well as personal involvement during this difficult time in our nation’s history.

The second youngest of thirteen children (seven boys and six girls), Roger was born on July 4, 1943 to his parents Elizabeth and Albert Dames. Roger’s father was a disabled WWI veteran who worked as a corrections officer at Dannemora (Clinton Correctional Facility). Roger graduated from Albany High School in 1960 and after graduation decided he would enlist in the Coast Guard. He shared that when he went to the recruitment office, he was told that the Coast Guard had a year and a half waitlist. Upon learning this, a Navy recruiter approached him to let him know if he enlisted in the Navy, he could be on his way the following day.

Roger went to the Great Lakes Naval Training Center in Illinois for boot camp. He subsequently was trained as an aviation structural mechanic and served at the Virginia Beach Naval Air Station for two years. With the start of the Cuban Missile Crisis and Blockade in October 1962, Roger was transferred to the US Naval Base in Guantanamo, Cuba. Roger explained that because of the hostilities with Russia, he was required to stay an additional six months, extending his active service to four and a half years.

Upon his return to Albany, Roger decided to take the exam to try to become a City of Albany Police Officer. Two of his brothers were already on the force and they convinced him to “give it a try.” Joining the force in April 1966, Roger went from being a patrol officer, to the Motorcycle Traffic Safety Patrol to finally the Neighborhood Safety Unit where he was plain clothes assigned to the south end of the City. He retired in 1990 after 34 years of service. In addition to working as a police officer, Roger decided to take advantage of the GI Bill and pursue a college degree, graduating from HVCC in 1975 with an Associate’s Degree in Criminal Justice and then onto UAlbany graduating in 1977 with a Bachelor’s of Science in Criminal Justice with an emphasis in sociology.

In 1971, the Coast Guard Reserves were setting up a new division for port security and they were looking for recruits, enlisting as many police officers and firefighters as they could find. As a lark, Roger signed up. This required him to serve one weekend per month and two weeks each year. Roger remembers September 11, 2001 quite vividly. He was at Colonie High School teaching security classes when he was informed about the Twin Towers being hit. He commented, “I expected a call any minute.” The call came in at 9:30 that morning from a Coast Guard Admiral instructing Roger to report to Staten Island at 0700 hours the following morning and expect to stay for a month. Roger recalled, “When I got on the Thruway the next morning, I was so impressed. There was wall-to-wall ambulances, police and fire vehicles, all heading to New York. It was difficult to get to Staten Island.” With this new assignment, Roger received the title of Command Master Chief and was responsible for supervising 3,000 to

Message from the Executive Director

Happy September!
September 6 – Labor Day
September 12 – National Grandparent’s Day and National Hug Your Hound Day
September 15 – National Thank You Day
September 21 – International Day of Peace and World Alzheimer’s Day

I love having a pet. Pets remind you while there is not much in this world you can control, there is always something beautiful and pure. Pets provide structure and routine, as well as unconditional love. They are happy to see and be near you. Pets have a way of providing a way of healing when you are broken.

After losing our beloved 13-year-old Golden Retriever, Tucker, back in 2019, I thought we might be done with pet ownership. However, low and behold, my husband, Joe, asked if we could get another dog. He wanted a dog that could be trained to be a “therapy animal” allowing him into senior centers and cancer wards. You see, Joe lost his dear older brother, Phil, to colon cancer way too young and his death devastated our entire family. “Philly”, the most laid-back one amongst us, was the glue that held everything and everybody together; and his premature death left an incredible void. Joe thought having a dog who assisted others unconditionally would be healing for us as well.

Well our new Golden, Hooper, now two, has a personality all his own and the therapy training classes have not gone as well as we have hoped but with time and patience, I believe Hooper will be everything our first Golden was, patient, kind and loving without a mean bone in his body.

Here is to being more like your pet...

Did you know that September is the Responsible Dog Ownership Month for the American Kennel Club?
We hope to see you at our FREE Outdoor Labor Day Concert on September 6th and Chefs in Motion on September 20th!

**Recognition Bestowed**

CSSC’s Executive Director, Diane Conroy-LaCivita, is being recognized as an Innovative Leader by the Capital Region Chamber of Commerce Women’s Business Council and has been asked to be a panelist at a luncheon on Tuesday, September 28 at the Albany Marriott.

As explained by the Chamber, over the past year and a half, many professionals have experienced challenges that forced them to reevaluate, reassess, or explore something entirely new. This event will highlight leaders who faced unforeseen challenges, overcame and adapted, and are now moving forward.

The panel includes leaders from various professional backgrounds and industries who will provide personal experiences, outlooks, resources, and tools that have helped as they continue to adapt and, more importantly, look towards the future.

Diane is humbled by the recognition and acknowledges that CSSC’s continued success has very little to do with her and much more to do with who she has been able to surround herself with throughout the last year and a half. Go Team CSSC!

Let Us Remember with Pause and Reflection… (Continued from page 1)

4,000 Coast Guard reservists and enlistees working on the site. Roger was at Ground Zero every day for two years and saw many young people under his command literally falling apart commenting, “These young people were under such tremendous stress.” On many occasions, he sent a person home for a weekend to be with their families and to give them a break, often purchasing their bus tickets for them. Roger periodically was able to come home for a weekend himself.

Roger spoke at length how appreciative the community and the nation at large were for their cleanup efforts. He was invited to attend a Yankees vs. Baltimore baseball game at Yankee Stadium and sat in George Steinbrenner’s private box. New York’s Chinese Community held a feast in their honor and gave everyone a beautiful silk jacket that Roger still possesses and absolutely cherishes. Broadway provided free tickets to evening performances and Roger was able to go to over 40 different professional plays and musicals at no cost. Roger reminisced that while sitting in a NYC pub with a group of his fellow reservists on one occasion a woman in her eighties approached the table saying, “You guys are my heroes.” In 2003, Roger retired from the Coast Guard Reserves on Staten Island with a formal walkout ceremony complete with a bagpipe procession that was witnessed by friends and family. Roger recalled that this was a very proud moment for him. He continued, “For a lot of years, I stayed home on 9/11. It brings back a lot of bad memories… I thought I did the best I could.”

Roger has been married to his wife, Rosemary, for fifty-two years and is the father of two children, Roger and Krystal, and has two grandchildren. He is actively involved in Veterans affairs saying, “I love Vets.” Roger has been part of the CSSC team since January 2010. We thank you Roger for all your selfless efforts and contributions to Colonie Seniors as well the nation.

As we approach the 20th remembrance of 9/11, we ask that you take a moment to reflect to remember the victims, the families and the survivors dealing with loss, recognizing the lasting consequences of that horrific day on individual lives throughout our nation as well as the world.

An Opportunity to Meet Pillars of Strength – Thursday, November 4, 2021

What are the Characteristics of a Pillar?

A pillar may be constructed of a single piece of stone or wood or built up of units, such as bricks. A pillar commonly has a load bearing or stabilizing function, but it may also stand-alone. When we relate this term to human beings, we can think of these individuals as supportive and emotionally strong; someone who consistently provides moral, emotional and/or financial support; a person who can be relied on to give a great deal of comfort and guidance.

With the generous support of Humanities NY through a 2021 initiative entitled “Let’s Have a Conversation,” CSSC has interviewed women in our community who are truly Pillars of Strength. Each month two women were asked to virtually share their life stories, career paths and/or hobbies. We talked to artists and attorneys, chefs and journalists, college professors and construction company owners. Their perspectives were real and much was gained during these conversations.

As we conclude this wonderful program, we invite you to join us on Thursday, November 4th from 4:00 to 6:00 p.m. at The Beltrone Living Center as we hold a reception with these remarkable women to thank them for all they do and for sharing their incredible stories.

IN MEMORIAM

Lou Dobek
August 27, 1919 – July 18, 2021

Like many of you I am sad for the loss of Lou Dobek. Lou and I started here at Sheehy together back in 1998 and I don’t have a single memory of my time here that doesn’t include him. He was bigger than life and always put his family, neighbors, and our community above everything else. He had the heart of a servant. For about his first 18 years residing here he was our go-to guy for everything. He did so much for the building including taking out trash, cleaning cars, serving lunch, carrying groceries, planning parties and countless other tasks that we had to put him on our payroll! Favorite sayings that made me smile were: “See you tomorrow if the creek don’t rise.” “Don’t worry... rain, snow or sleet, Lou’s on the street” or on bitter cold day he would always say “it’s beautiful out... no mosquitos.” He made fast friends with everyone he met. He loved to sit in the lobby or outside on the bench and chat with neighbors. For many, many years he single-handedly did all of the holiday decorating to simply bring happiness to his neighbors. He knew the importance of a tight knit community and watching out for one another. For many, many years he single-handedly did all of the holiday decorating to simply bring happiness to his neighbors. He knew the importance of a tight knit community and watching out for one another. He was a gentleman and simply one the kindest people you would ever meet; The world would be a better place with more people like Sweet Lou.
